Dave Kluesner, Public Affairs
EPA, Region 2
New York, NY

Dave, I attach ANJEC's Fourth Quarter Report. We will submit the Final Project Report along with the financial accounting.

It's been a pleasure working with you. It's a good thing we worked on this project in 2008/09 as it established some good networking and basic general knowledge about the Passaic watershed. It looks very much like the environment is definitely not a concern of New Jersey's new administration.

My best to you for the New Year.
